

Point of use

Fixations

In the lounge or at the bar: the little FORTINO[®] is there wherever you need shade. Thanks to its size, it can change location quicker than you can say Jack Robinson. The opposite servo principle means that it is easy to use: simply pull the tension lever down and clip it onto the slider. The frame is made from naturally anodized aluminium, with a two-part grooved pole. With its stable construction, the FORTINO[®] is wind resistant and can be fixed onto multiple bases or a floor fitting.

Beach Hamburg

Material and technology

Frame: 8 rods made of natural anodized aluminium, 100 % inox, screws and rivets of high-grade steel, two-part profiled pole 38.4 × 2 mm, contrarotating opening system allowing for easy opening.

Framematerial: anodized natural

Frameform: round or square

Shade cover: self-tautening thanks to the flexible rod ends
 material class 5 (100 % polyacrylic approx. 300 g/m²)
 material class 4 (100 % polyester approx. 250 g/m²)
 material class 2 (100 % polyester approx. 220 g/m²)

Flounce: not available

Protective cover: optional

Total height closed: 280–305 cm

Height open: 245–265 cm

Wind: max. wind speed open perm. 80 km/h

UV protection: depending on colour ≥ 98 % (based on test results of “Swiss Quality Testing Services”)

Light fastness: material class 4 and 5 = Level 7–8

Water pressure: material class 4 = water column 100 mm
 material class 5 ≥ water column 300 mm (depending on colour)

The listed measures represent extrapolated average values that may be slightly different on the product ($\pm 2\% \pm 5$ cm).

Height dimensions are based on ground socket BT. These vary slightly depending on the type of base. Except for steel base minus 5 cm.

The max. wind speed limits as per our separate list apply only in the presence of a fix ground anchorage.

In the presence of several sunshades, the minimum distance between one sunshade and another and between sunshades and walls shall be 20 cm.

Loose cover max. 10 cm, concrete thickness
min. 30 cm (pay attention to frost depth),
